Step 2 - Support

A: Emotional support ideas

- Comfort (a hand, a hug or loving words)
- Reassurance ("It's going to be ok")
- Communication of understanding ("I understand you"; "I hear you")
- Communication of positive regard ("I know you are doing the best you can right now")
- Communication of belief in the other ("I believe in you; "I believe you can do this")
- Communication of togetherness ("We're in this together"; "I want the best for you too")
- Space* (Why don't I give you a few minutes and we'll try again)

B: Practical support ideas

- Proceed with plan
- Suggest a distraction activity (walk, movie, music, etc)
- Redirect to another thought or activity
- Teach skills
- Exposure to the anxiety-provoking stimulus (in a gradual way)
- Offer solutions to solve the practical problem or take over to solve the problem
- Set a limit
- N/A (sometimes, once the other is validated and supported emotionally, no more is required)

^{*}space can be physical or psychological *and* time-limited in that the plan for reconnection must be clearly communicated
